

## Synthetic ice tiles

**Synthetic ice tiles** are also called artificial ice tiles, are made of the 100% virgin UHMWPE with CNC machined dovetails or jigsaw patterns for assembly. It had been widely used in hockey, curling, figure skating, home rinks, ice slope or similar scenes.

## Features

- Customized dovetails connected
- Goalie crease, blue line, red line, goal line available.
- Self-Lubricating infused surface (No spraying required)
- UV Protected for outdoor use.
- Low friction coefficient, high wear resistance
- High impact resistant
- impact resistance, low temperature resistance, chemical corrosion resistance, water proof
- 5 years outdoors,10 years indoors warranty.
- 25 years life expectancy.

## Size table

Thickness (mm)	Assembly Dimensions(mm)	Application
8	950*950	Residential
9.52(3/8" )	970*970	
10	1170*1170	
12	1000*1000	
12.7(1/2" )	1000*2000	Residential /Commercial
	1020*1020	
15	1020*2040	Commercial
18	1220*1220	
19(3/4" )	1220*2440	
20	<b>Others can be customized</b>	
25.4(1" )
